Work Experience

Senior Creative Developer • **Codeword Agency** | New York, NY (Remote)
Sept 2025 - Present

- Develop and maintain web applications for enterprise clients including Google Data Centers and internal agency properties
- Manage full-stack technical implementation across WordPress, Next.js, and BrightSpot CMS platforms
- Own site infrastructure, deployments, and DevOps workflows for client-facing applications
- Collaborate with design and communications teams to translate creative concepts into technical implementations

Full Stack Software Developer • **KQED** | San Francisco, CA (Hybrid)
May 2022 - Oct 2025

- Led frontend development for California Voter Guide serving millions of voters across multiple election cycles
- Built and maintained custom Gutenberg blocks modernizing KQED's WordPress multisite infrastructure
- Architected reusable React component library across multiple properties, accelerating development velocity
- Implemented WCAG 2.1 accessibility standards and mentored junior engineers through code reviews and pair programming

Web Dev Intern • **Postman** | San Francisco, CA (Remote)
July 2021 - Dec 2021

- Contributed to REST API testing workflows and frontend documentation
- Gained hands-on experience with API development, testing strategies, and developer-first tooling
- Collaborated with engineering team on improving developer experience and documentation quality

Education

City College of San Francisco
Computer Science Coursework (2021–2022)

General Assembly
Software Engineering Immersive (2020)

Skills

Programming Languages

JavaScript, TypeScript, PHP, HTML5, CSS3, Sass

Libraries & Frameworks

React, Next.js, Redux, Node.js, Express, Tailwind CSS

Tools

Git, GitHub, Vercel, Jest, Webpack, Postman, Figma, WordPress (Gutenberg), Docker

Projects

Dev Notes AI

AI-powered knowledge base with custom MCP server, Redis caching, and background job processing

Tech: Next.js, TypeScript, FastAPI, PostgreSQL, Redis, Claude API

California Voter Guide

Civic engagement platform serving millions of California voters across multiple election cycles

Tech: React, Redux, WordPress, PHP

KQED MCP Server

Custom MCP server providing programmatic access to KQED's public APIs for content discovery and media retrieval

Tech: Python, MCP Protocol, REST APIs
